COMPANY OVERVIEW

HiTech Jo is a Jordan-based technology company that specializes in creating innovative digital solutions for businesses and institutions. Founded with a vision to combine creativity and functionality, HiTech Jo has become a trusted partner for web development, software design, and IT services across the region.

From concept to deployment, HiTech delivers user-centered products that enhance online presence, streamline operations, and support sustainable digital growth.

Our expertise spans across multiple industries, including education, corporate, and e-commerce, providing customized solutions that align with each client's unique goals.

LETS SEE MORE

DEFINING OUR PURPOSE

Our mission is to provide businesses with the tools and strategies needed to achieve sustainable success. We envision a future where innovation and collaboration drive industry transformation.

Mission

To become a global leader in innovative technology solutions, enabling businesses to thrive in the digital era.

Vision

To deliver reliable, scalable, and cost-effective digital solutions that empower organizations to achieve their goals and stay ahead in a competitive market.

OUR CORE VALUES – HITECH

H

Honesty

We build trust through transparency, integrity, and accountability in every interaction.

I

Innovation

We embrace creativity and technology to deliver forward-thinking solutions.

T

Teamwork

We believe in collaboration, empowering our people and clients to achieve more together.ility in every interaction.

E

Excellence

We are committed to the highest standards, ensuring quality and impact in every project.

C

Customer-Centric

Our clients are at the heart of our work, and their success drives our success.

H

Harmony

We value balance, respect, and sustainable growth for our team, clients, and community.

WHY CHOOSE US?

At HiTech Jo, we don't sell "one-size-fits-all" solutions—we design, build, and optimize around your goals, budget, and timelines. Every engagement begins with a short discovery to map business priorities, then we assemble the right mix of services to accelerate measurable growth.

Proven Expertise:

With years of experience delivering web development, mobile applications, ERP systems, and custom software, HiTech Jo has a strong track record of successful projects for clients in education, government, manufacturing, finance, and heritage sectors.

Tailored Solutions:

We understand that every business is unique. Our team crafts solutions that are customized to meet your specific operational needs, workflows, and growth objectives — from responsive websites to fully integrated Odoo ERP systems.

Innovation and Technology Leadership:

We leverage the latest technologies and creative design principles to build cutting-edge digital solutions, including AI-powered tools like HiBot, scalable e-commerce platforms, and smart business systems.

WHY CHOOSE US?

End-to-End Support:

HiTech Jo is more than a technology provider — we are your long-term partner. From initial consultation and system design to deployment, training, and ongoing support, we ensure seamless implementation and continuous value.

Client-Centric Approach:

Your success drives ours. We prioritize understanding your business, delivering measurable results, and ensuring every project aligns with your strategic goals while exceeding expectations.

Scalable and Future-Ready:

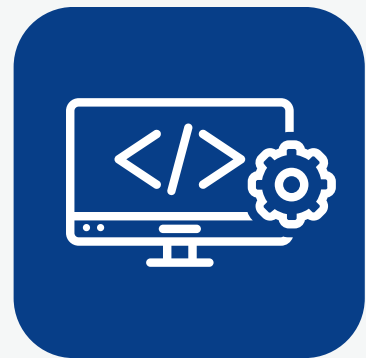

Our solutions are designed to grow with your business, ensuring flexibility, scalability, and adaptability to evolving market demands and technological advancements.

Trust and Integrity:

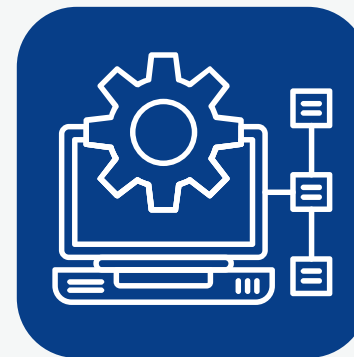

With a foundation built on honesty, transparency, and accountability, HiTech Jo ensures reliable collaboration and long-term partnerships with all clients.

OUR SERVICES

Web Development

**Business Systems

**Custom Software
Development**

WEB DEVELOPMENT

We build responsive, modern websites designed to enhance your online presence and drive business growth. Our web development services include professional corporate websites that represent your brand, stunning portfolio websites that showcase your work, and powerful e-commerce solutions that boost online sales.

With cutting-edge technology and user-centric design, we create websites that are not only visually appealing but also optimized for performance, security, and search engines. Whether you need a simple landing page or a complex web application, our expert team delivers custom solutions tailored to your business goals and target audience.

MOBILE APPLICATION DEVELOPMENT

We create high-performance, user-friendly mobile applications for iOS, Android, and hybrid platforms that deliver exceptional user experiences.

Our mobile development expertise covers native iOS and Android apps built with the latest technologies, cross-platform hybrid solutions that reduce development time and costs, and feature-rich applications with seamless functionality. From concept to deployment, we handle the entire mobile app development lifecycle, ensuring your app is intuitive, responsive, and optimized for performance.

Whether you need a customer-facing app, an internal business tool, or a complex mobile solution, we combine technical excellence with creative design to bring your vision to life and engage your mobile audience effectively.

BUSINESS SYSTEMS DEVELOPMENT

As official Odoo partners, we deliver comprehensive ERP solutions that streamline your business operations and significantly boost efficiency.

Our business systems development services include implementing powerful CRM systems for customer relationship management, modern POS solutions for point-of-sale operations, and integrated accounting and finance systems that provide real-time insights.

We specialize in customizing Odoo to fit your specific industry requirements, whether you're in retail, manufacturing, healthcare, or services. Our expert team handles everything from initial consultation and system design to implementation, data migration, staff training, and ongoing support – ensuring your business processes are automated, optimized, and scalable for future growth.

odoo

CUSTOM SOFTWARE DEVELOPMENT

We design and develop tailored software solutions that perfectly match your unique business requirements and operational workflows.

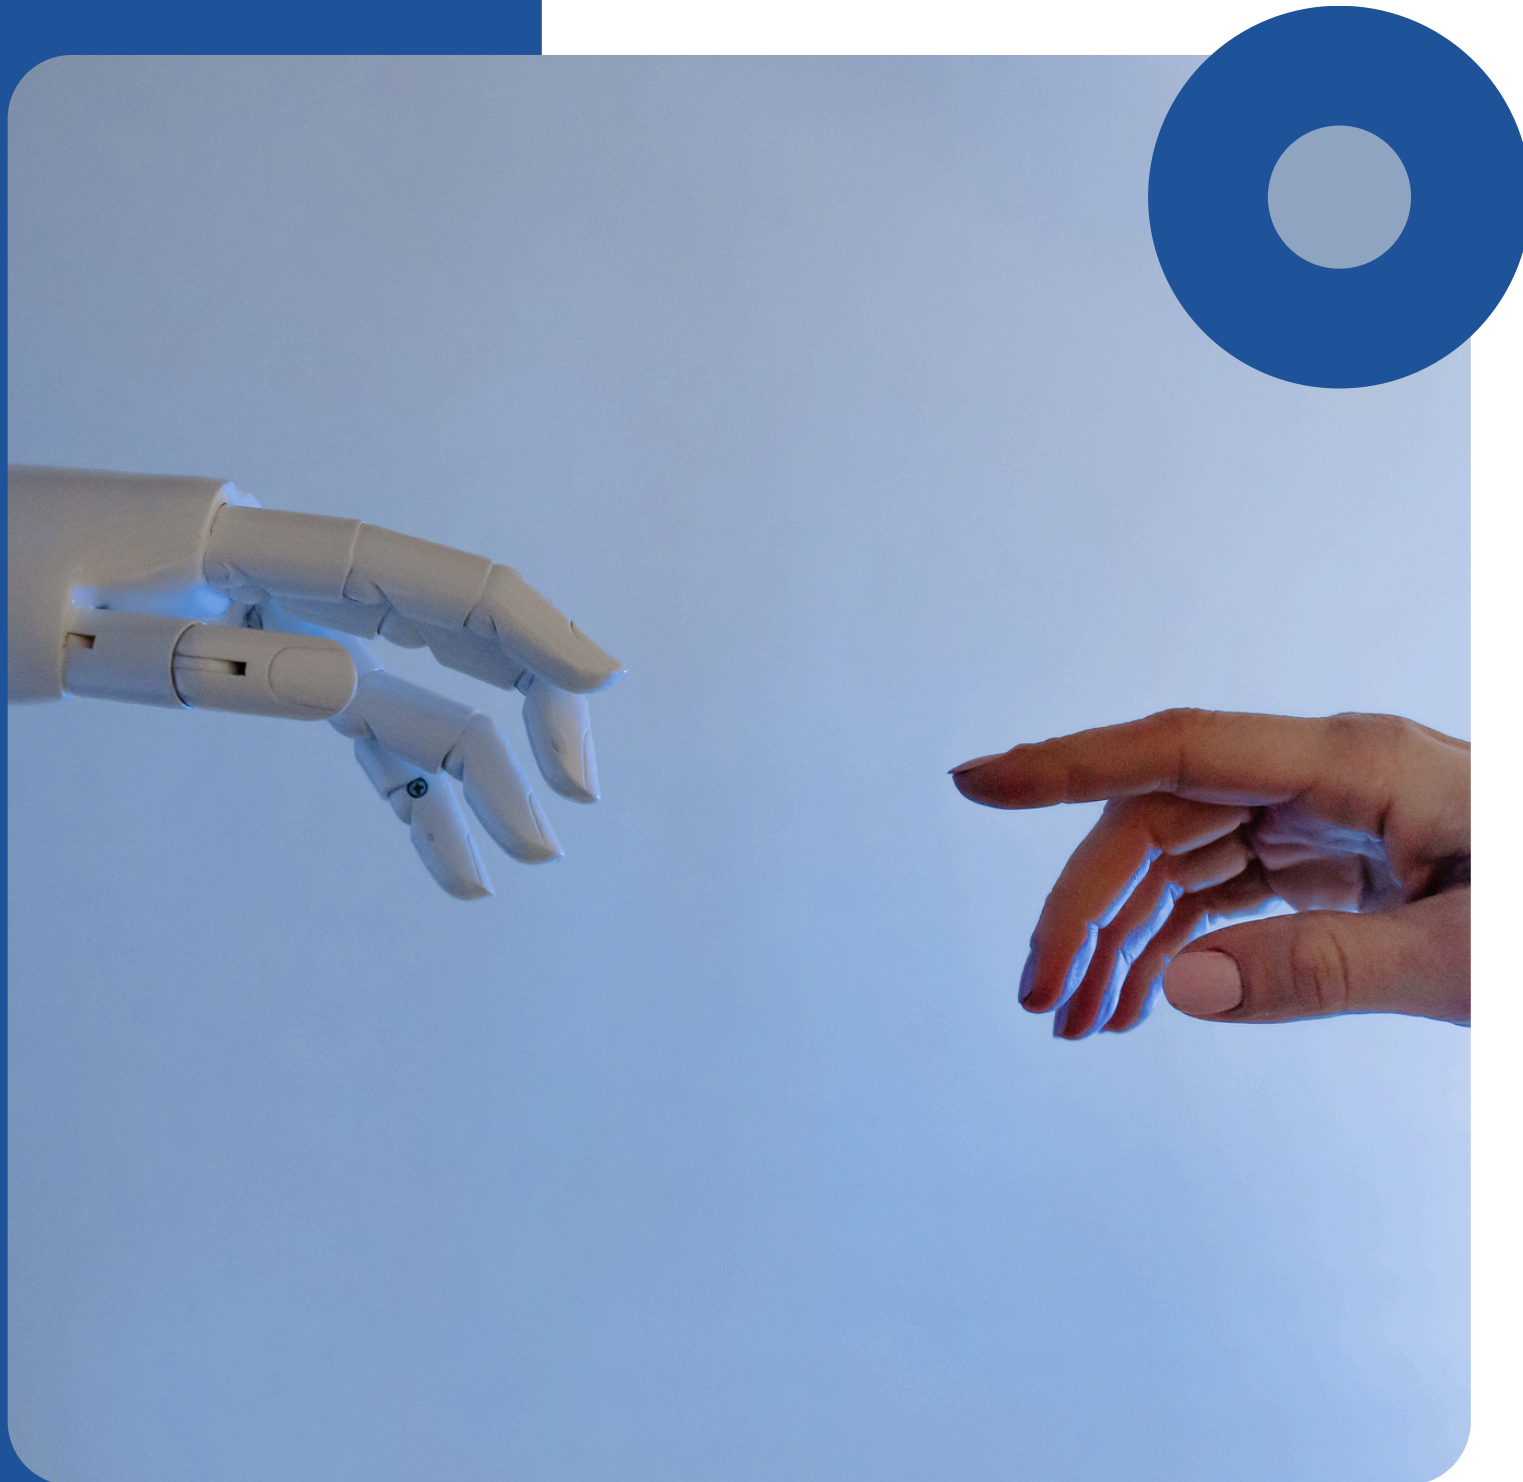

Our custom software development services focus on creating scalable, future-ready applications that address your specific challenges and drive sustainable growth. From enterprise management systems and workflow automation tools to specialized industry applications and integration solutions, we build software that fits your business like a glove.

Our development process includes thorough requirements analysis, strategic planning, agile development methodologies, rigorous testing, and seamless deployment. We use modern programming languages and frameworks to ensure your custom software is maintainable, secure, and adaptable to evolving business needs — providing you with a competitive advantage in your market.

HiBot

First Smart Chatbot

HiBot is Jordan's first intelligent chatbot solution, revolutionizing how businesses interact with their customers through AI-powered automation.

Designed to provide instant, 24/7 customer support, HiBot automates routine customer interactions, answers frequently asked questions, processes inquiries, and enhances overall user engagement across multiple channels — including websites, mobile apps, and social media platforms.

With advanced natural language processing capabilities, HiBot understands customer intent and delivers personalized responses that feel human and helpful. Whether you need to reduce support costs, improve response times, capture leads, or provide round-the-clock assistance, HiBot integrates seamlessly with your existing systems and can be customized to reflect your brand voice and business processes — transforming customer service into a competitive advantage.

AMERICAN UNIVERSITY
OF MADABA

الجامعة الأميركية
في مادبا

The American University of Madaba is a renowned private university in Jordan, dedicated to academic excellence and innovation. HiTech Jo designed and developed AUM's official website, featuring a robust content management system (CMS) that allows seamless content updates and enhances communication with students, faculty, and visitors.

Techwave is a leading Jordanian consumer electronics brand offering smart devices and home technology solutions. HiTech Jo built a high-performance, visually engaging e-commerce platform for Techwave, focused on improving product visibility, customer experience, and online sales performance.

Elective Services is a UK-based healthcare company providing insourcing and clinical support services to the NHS and private healthcare providers. HiTech Jo developed a professional website that highlights their expertise and services. Additionally, we created a custom Quality Assurance (QA) system designed to improve operational efficiency and compliance — a solution that will soon be introduced across the entire NHS network.

The Ministry of Energy and Mineral Resources oversees Jordan's national energy policy and geological services. HiTech Jo developed a custom website for the Earthquakes Department, enabling the ministry to share real-time seismic data and public updates through a secure, user-friendly platform.

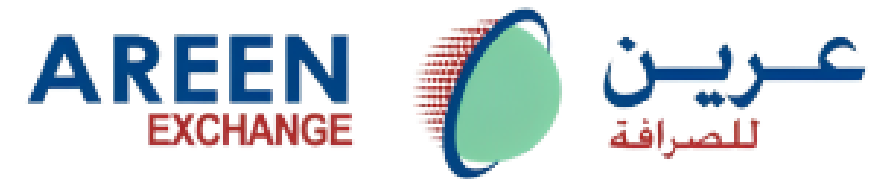

WASM ALTAMDED Co L.L.C
شركة وسم التمديد ذ.ذ.م

WASM ALTAMDED specializes in the manufacturing and supply of gas and water system parts. HiTech Jo implemented a complete Odoo ERP solution, integrating core business operations such as procurement, sales, inventory, and finance – streamlining workflows and enhancing productivity.

MAADEN
مصنع معادن لإنتاج المبيدات والأسمدة
MAADEN FACTORY FOR PESTICIDES & FERTILIZERS

Ma'aden is a regional leader in pesticide and fertilizer manufacturing, providing agricultural solutions across the Middle East. HiTech Jo developed a modern, responsive website that showcases Ma'aden's insecticides, herbicides, and fertilizers, helping the company strengthen its digital presence and engage customers more effectively.

Areen Exchange is a trusted Jordanian financial company offering currency exchange and remittance services. HiTech Jo created a secure and responsive website that highlights their services, enhances user accessibility, and reinforces customer confidence through a professional digital experience.

Beit Al Turath is a USA-based traditional business dedicated to preserving and promoting cultural heritage through authentic craftsmanship. HiTech Jo developed a portfolio website that beautifully presents their creations, values, and story — blending elegant design with cultural authenticity.

OUR PARTNERS

HiTech Jo is proud to be an Odoo partner, leveraging this powerful ERP platform to deliver comprehensive business management solutions

What is Odoo?

Odoo is a complete suite of business modules, including:

- Customer Relationship Management (CRM)
- eCommerce
- Accounting & Billing
- Inventory & Warehouse Management
- Project Management
- Financial Management
- Manufacturing & Purchasing

OUR PARTNERS

Fully integrated and full-featured software

Odoo apps are natively integrated, allowing businesses to fully automate all processes and reap savings and operational benefits.

Scalable for any type of business

Our easy-to-use software meets the needs of businesses of all sizes. Its ERP system is scalable, supporting anywhere from 1 to 300,000 users, and modules can be added as the company grows.

Highly customizable database

Beyond its standard features, Odoo can be fully customized to meet specific business requirements, ensuring it aligns perfectly with complex operational workflows and unique company processes.

HiTech Jo implements Odoo solutions end-to-end — from consultation and system design to implementation, customization, training, and ongoing support — enabling our clients to streamline operations, optimize resources, and achieve scalable growth with full confidence.

MILESTONES THAT DEFINE US

Our journey has been marked by significant achievements that showcase our commitment to excellence. Over the years, we have successfully expanded our global presence, developed industry-leading solutions, and built strong partnerships.

Global Expansion

Successfully entered multiple international markets, strengthening our global footprint

Industry Recognition

Earned numerous awards and accolades for excellence in innovation, customer service

Strategic Partnerships

Established collaborations with key industry players, fostering knowledge exchange

TAILORED SERVICES FOR GROWTH

Technology Integration

Implementing advanced technological solutions, including AI and automation, to enhance productivity

Risk Management

Identifying potential business risks and developing proactive strategies to mitigate challenges and ensure stability.

Data-driven decisions:

Clear KPIs (lead volume, conversion, cost-to-serve, SLA adherence) with dashboards your team can trust.

Industry fit:

Solutions aligned to your context—SMEs, education, healthcare, manufacturing, finance, heritage, and e-commerce.

Sustainability Initiatives

Start small (MVP or single module) and scale to full platforms, ERPs, and mobile apps as ROI is proven.

OUR VISION FOR THE FUTURE

Impact at scale:

From SMEs to national programs, our products and platforms will streamline operations, reduce costs, and unlock new revenue.

AI in every workflow:

Practical, ethical AI—embedded in ERP, CRM, and support—to automate routine work and elevate decision-making.

Interoperable ecosystems:

Open, secure integrations that connect finance, HR, operations, marketing, and analytics into one reliable source of truth.

Experience by design:

Digital journeys that are accessible, fast, and brand-consistent across web, mobile, and in-person touchpoints.

Security & trust by default:

Compliance-ready architectures, clear data governance, and measurable resilience.
